We've made it our mission to address the lack of affordable housing in Australia.

We have a range of prefabricated homes that are affordable, customisable and quick to build.

Your housing solution.

PG Portable Homes affordable designs and quick assembly will make your home owning dream a reality.

Talk to us about our off grid energy options.

Our range of portable homes.

Come complete with all fixtures including open plan kitchen and living space, bathroom, bedrooms, double glazed windows, exterior double door, lights, tapware, doors and door handles.

All our homes are insulated, prewired and preplumbed.

Customisable options.

We have multiple options to make **your home perfect** including additional bedrooms, windows and external doors. Make the kitchen U or L-shaped or add wall cupboards. There are exterior colour options; pitch the roofline or add on a verandah. You can also install an off grid energy management system.
